SHINING A LIGHT ON RIPPLEFOLDS

FRANCE LAMARRE
Designer

In 2016, French traditional curtain pleats, cascading valences and curtains lacking fullness were slowly pushed aside. Now in are ample curtains that rise from floor to ceiling, and adorn windows as much as walls. Your home has wonderful windows, do not let them fade away into blandness; be bold, choose custom window dressings. Let window coverings beautify your interior, ensure your privacy, and save energy. Even your furniture will benefit from UV ray protection! This year, out with the ring folds and in with new ripplefold designs.

- They look amazing as standalone products, or they can even be seamlessly combined with other window coverings such as roller shades, Roman shades, Horizontals blinds, shutters...etc.

- They can be easily adapted both for very large windows or as decorative curtains. When opened, they take up surprisingly little space.

The ripple fold products are certainly here to stay. To guarantee success and satisfaction, all the steps you take are important: starting with the appropriate choice of fabric, selecting the proper length and thickness, fullness, lining etc. Preparation and installation must be done carefully, therefore taking the right measurements is a must. Let us help you bring out the absolute best in your windows, together we can take the beauty of your home to new heights.

WHY CHOOSE ITALIAN RIPPLEFOLD?

- The new Italian ripplefold is the perfect pleats. Open or closed, your curtains are always of equal depth and thickness. With a ripple fold curtain, the tape is designed to insert small pvc hooks which gives the advantage of choice when it comes to your curtain's fullness be it 2 1/2", 3", 3.25", 3.50", 3.75", etc. depend the pattern and weight fabric.

- They are timeless classics ideal for both urban and chic designs. Whether you decide on a plain fabric or a patterned one, the look remains elegant. If prints are more to your liking, there is no need to worry; the ripplefold ensures that the details of the print don't get lost in the folds.

- To aim for originality, create a headboard with a fabric that matches your ripplefold curtains, or even have a ceiling mounted ripplefold curtain to divide a room.

A CONTEMPORARY MOTIF WITH A POP OF COLOR!

It was `deja vu'. Another condo to decorate at the Riverhouse. A repeat project for one of Goode's most discriminating clientshow exciting she reveals! "This time around we went contemporary with a pop of color," said Goode.

INTERIORS Goode Interiors, Inc., Plantation, (954-701-6149)
PHOTOGRAPHY Abel Carlo, Deerfield Beach

Sherri Goode's goal was to take the interiors of this condo and turn it from Drab to Life. The original state of this present condo was nothing more than a mere state of depression. With a lot of creativity and vision Sherri Goode was able to see the forest between the trees. Once again, in a very short time frame, the project was reborn. Hence, a few changes had to take place prior to any decorating.

As you enter into the open floor plan of this condo you are pleasantly surprised by the amount of living space in comparison to the square footage. The polish marble floors create a platform for the contemporary furnishing.

The dining room features the "Phillips Collection" Frizzante dining table in stainless with the purple seat-belt dining chairs to pop color. A clear crystal beaded fixtures adds just the right amount of embellishment to the space. The "Bill Mack", Encircled Enigma, Relief sculpture hangs on the dining room wall to create the dramatic appeal to the space.

Off to the left is the living room seating area to hang out, watch tv or to look down out at the New River. Each room has spectacular views of the New River. The barrel, swivel chairs are perfect scale for the space. The seating collection and ottomans are custom made by Weiman a division of Interlude Home. The Floor lamp by Luan Bella is not only functional but is decorative in nature.

- Continued on next page -

"The kitchen was a true work in progress", states Sherri Goode! Without going through a complete renovation a face lift was a must! New appliances had to be upgraded as well as the counter tops and lighting. After a thorough walk thru at BR Stone, my client asked me if this was your condo what would you choose? Just so happen to be standing in front of two of the most exquisite slabs of pink & purple Agate Stone, " I said these two slabs." Done Deal! My clients fell in love with these slabs and this was where the project took off. The back splash was back lit with LED lighting to give it a dramatic feel. The half wall below the bar is covered in Mother of Pearl Mosaics to tie the two materials together. This open floor plan allows you to entertain with ease.

Art is a passion for Sherri Goode's Clients and this "Bill Mack" relief sculpture, " Elusive" hangs delicately over the counter top to create a Classy Feel! This is just one of the many pieces of art throughout the condo. -Continued on next page -

The den/guest bed room was created for the sole purpose of not to waste any space.. My clients’ use this room on a daily basis for casual comfort. The furniture in this space has been custom made to suit the needs of the client. The sectional leather sofa converts into a king bed when needed. This room reveals magnificent views of the River. All the doors have been converted to sliding and swing doors by the sliding door co. The 3- paneled milky glass doors help to lighten up the

space. The feature wall is covered with a metallic wall paper from Italy in a damask pattern design. Flanking both sides of the sofas are a pair of extra terrestrial looking floor lamps by Global views and two matching side tables by Interlude Home. The round metallic cow hide ottoman was custom made to be used as a cocktail table or for additional seating. This cowhide ottoman coincides with the silver, metallic cowhide rug that it is placed on.

The master suite, another space with spectacular views overlooking the New River. The Hunter Douglas Luminettes allow for privacy and esthetically beautiful in nature. The entire condo has Hunter Douglas Luminette window treatments installed throughout each room. The feature wall is covered in a snake skin wall paper from Italy. The matching table lamps are organic in nature to tie together the theme. The custom bed, nightstands and dresser are designed by Old

Biscayne Furniture. The silvery gray and taupe hues were carried throughout the master bathroom.

The attention to detail yielded a space that emits warmth elegance, formality and luxury all in a contemporary setting. This detail complimented the open floor plan. The clients’ can be described as true class acts! Unpretentious in nature with true impeccable taste.
