# ALLIED KITCHEN & BATH CELEBRATES THE GRAND OPENING OF THEIR SECOND SHOWROOM! LOCATED IN DOWNTOWN OAKLAND PARK CULINARY ARTS DISTRICT

Allied Kitchen & Bath, South Florida's leading retailer of custom kitchens, baths and complete home remodeling, celebrated the opening of its second showroom located at 3484 NE 12th Avenue in Oakland Park on April 21st. Oakland Park Mayor Tim Loneragan, along with other local dignitaries, joined Allied Kitchen & Bath founders, Bill and Joe Feinberg, and brothers Rob and David Feinberg, for a ribbon cutting ceremony at the newly designed 10,000-square-foot space in the Downtown Oakland Park Culinary Arts District.

"It is an incredible honor to have the support of our community as we expand to a second location in the Downtown Oakland Park Culinary Arts District," said Bill Feinberg, President and Co-Founder of Allied Kitchen & Bath. "As with our other location we promise to deliver the finest services to our clients and treat them fairly and honestly with the objective of making customer service and satisfaction a top priority."

Following the ribbon cutting ceremony, the Feinberg brothers were surprised with a Broward County Proclamation presented by Broward County Commissioner Chip LaMarca who declared April 21st as "Allied Kitchen & Bath Appreciation Day" in acknowledgement of the hard work and dedication Allied Kitchen & Bath has put forth in growing the community both through their economic and philanthropic efforts. Shortly after that, FPL presented Habitat for Humanity of Broward County with a \$20,000 donation that was accepted by Habitat for Humanity of Broward County Board Chair, Bill Feinberg.

During the event, more than 300 guests toured the beautiful showroom and were treated to music, light bites, wine and pizza cooking demonstrations on the eve before its opening to the public on Friday, April 22nd. Allied Kitchen & Bath's second location is an extension of the current showroom located at 616 West Oakland Park Boulevard and showcases kitchen models, including several functional, interactive models, in addition to a broad display of cabinetry, appliances, custom closets, decorative hardware, bath displays, plumbing, lighting, flooring, outdoor kitchens and home accessories. The new location also features technologically advanced equipment such as multiple flat screen televisions and a projector system that will continuously display creative design ideas as inspiration for clients.

The functional and interactive models in the new showroom include appliances from Monark Premium Appliance Company which aims to enhance and elevate the way we live. Monark has partnered with Allied

Kitchen & Bath to provide the following brands: Sub-Zero, Wolf, Viking, Miele, KitchenAid, Dacor and Thermador.

# Introducing, Roche Bobois and Stephen Burks' newest additions to the TRAVELER collection.

Designed by Burks in 2015, the collection offered two versions of the monumental armchair - one American and one European. The journey continues in 2016 into Asia for an outdoor collection distinguished by a tubular lacquered still structure, wound with colored cord. The collection is available in two color-ways: bright coral, red and yellow or soft grey, white and luminescent turquoise.

“The Traveler Collection is an ongoing project with Roche Bobois that Nicholas Roche and Burks imagine collaborating on in different countries around the world.

The concept is about exploring ways for a conscious luxury brand like Roche Bobois to have a dialogue with new markets through expressive artisanal products.

This time, Nicholas Roche and Burks went to Indonesia to extend the Traveler family and produce the Asian Traveler. For the Asian Traveler Burks built upon the European Traveler's woven leather cord and skeletal frame to create a full outdoor collection for Roche Bobois in Burks' signature vocabulary of woven vibrancy inspired by rich Indonesian craftsmanship."

## Jeffrey Alan Marks for Inspired by Kravet Launches Debut Bedding Collection at Bed, Bath and Beyond.

*“When creating these prints, Marks found inspiration in the outdoors – hiking through meadows and exploring lakes and rivers of Aspen, Colorado.”*

Los Angeles-based interior designer, Jeffrey Alan Marks, has partnered with Inspired by Kravet on a collection of luxe bedding available exclusively at select Bed, Bath and Beyond stores nationwide. Jeffrey Alan Marks' collection is Inspired by Kravet's first designer series.

Launching for Spring/Summer 2016, the collection offers a range of chic, neutral bedding made from Marks' own fabric designs for Kravet Collections. There are a total of four designs in the collection – Chromis, Treeline, Waterway and Whirlpool. When creating these prints, Marks found inspiration in the outdoors – hiking through meadows and exploring lakes and rivers of Aspen, Colorado.

“It's been great fun to collaborate with Jeffrey on Inspired by Kravet, our latest bedding collection for Bed Bath and Beyond,” said Scott Kravet, EVP and creative director for Kravet Inc. “We adapted several of his popular fabric designs into sophisticated bedding ensembles that we feel are perfectly of-the-moment for the stylish customer looking to create a serene oasis in his or her home.” The collection includes duvet covers, shams, throws and decorative pillows. It will be available in April at select Bed Bath & Beyond locations and online at: <http://www.bedbathandbeyond.com/>

# USING SHADES TO DIVIDE ROOM SPACE IN AN ARTISTIC WAY.

By Toti and Amy Fleischman,  
Drapes Decor, Golden Beach

This day in age, customization is all the rage. With the use of logos, treasured photos and favorable colors any space can be tailored to a homeowners unique taste and personality. With the increase of single family homes, homeowners are looking to divide rooms in more creative ways. One way is to create an innovative shade that also functions as a room divider while adding some pizzazz. (right photo)

The following paragraph points on how to effectively and uniquely use custom motorized shades to save space and help a room look fabulous:

- Create a recess in the ceiling where the rollershade is hidden to divide two rooms (i.e. a bathroom from a bedroom) without compromising light. In this particular situation, it worked especially well since there was no light in the bathroom, due to lack of windows.
- Print a distinctive image onto the shade to create the illusion of a floating piece of artwork. In this specific project, the designer chose a custom image that was created from scratch and unique to this client’s taste.
- Depending on functionality, blackout fabric can be used for added privacy or to keep out light.

Blinds International (righthand photo) , Sunrise; and Florida Blinds and Drapery Design, Hollywood (left photo).

Deborah Weeselman from DWD Inc. located in Miami warns to not add too much funky furniture to the room if there is a custom logo being used for the blinds or drapes as it will be too overwhelming for the room. In addition, Assure Home says that you can spice up the room by adding colorful, bold accessories rather than funky furniture in order to give it the personality it needs such as throw pillows and art deco designed vases. Other reputable window treatment companies in Broward are

# GLASS THAT TRANSFORMS YOUR WORK SPACE

**It shouldn't be hard to mix style and functionality in the workplace.**

An office should inspire the work it enables, so why is it that so often we get saddled with boring and lackluster whiteboards and white walls everywhere? Fortunately, we no longer have to settle for this method of communication that demotivates employees and creates a bland work environment.

Flip, the newest innovative product from Clarus Glassboards is a unique two-sided glass board. On one side is the glass board you know and need for meetings and important information, while the other is a piece of art, with custom prints, patterns and colors. The Flip is also fully customizable to match any established interior design—and you can even make Flip a two-sided glass piece with a custom printing on one side. Quite simply, Clarus Glassboards Flip creates a functional and stylish workplace with a single piece. It even won Interior Design's 2015 Best of Year Award in office accessories.

Clarus Glassboards is largest manufacturer of dry-erase glass systems in the United States, and they have already revolutionized the way some of the biggest companies communicate. In addition to the two-sided Flip, Clarus Glassboards offers a range of customizable products including glass walls, boards for conference rooms, mobile glass boards and furniture glass. Some of the most respected and successful organizations and industries, including Google, Facebook, Whole Foods, American Express, Twitter and Under Armour, are already using Clarus Glassboards in their company.

Icynene® is an environmentally approved "Green" product and has been used in various American Lung Association's Health House projects. # The Importance of Good Interior Lighting

Designing your home lighting is often left to the last minute, everyone is tired and just want to get the job finished and unfortunately hasty decisions are often made, with a lot of regret.

Lighting home interiors should be considered along with the space planning and decoration planning as it relates directly to how each space is perceived. Lighting Design at it's best – an impressive use of uplight and downlights to highlight features in the room, with a stunning central chandelier being the focal point of the upper floor and ground floor space.

You could have the best interior decoration in the world but unless you have made provisions to light it; it could disappear into oblivion. Poor lighting selection can wash out color and texture, and make the room look less than ordinary.

Where as careful considered interior lighting selection can greatly enhance even the simplest of interior design features.

At interiordezin.com we have some simple advice for planning lighting for your home, and if you are an interior designer or decorator, we have more detailed information to up-skill your lighting knowledge.

It is important to remember however that even though you can work out your lighting requirements yourself, it is prudent when spending a lot of money on light fittings and electricians to install them, that hiring a professional to provide advice, or check your selections and add their recommendations is good advice and money well spent.
